### **Terms and Conditions for the International tariff for Tele2 prepaid customers (for activations from 17 May 2013)**

1. By activating the International tariff (in further text: Tariff), the Tele2 prepaid customer (in further text: Customer) accepts these Terms and Conditions for the International tariff for Tele2 prepaid customers (for activations from 17 May 2013); (in further text: Terms and Conditions).
2. The Tariff will be automatically activated to the Customer who activates a new Tele2 prepaid SIM card from a special International Tele2 prepaid SIM start package.
3. The tariff and its benefits are defined by the valid Tele2 pricelist.
4. All users who activate the tariff between 17 May 2013 and 30 September 2013 will get a promo data package with 300 MB that is valid 10 days from the activation date. The data package will be activated within 24 hours after the Customer makes the first call or refill.  
All users who activate the SIM card from a special free of charge prepaid start package with the International price plan will get a promo data package with 300 MB that is valid 10 days from activation date. The data package will be activated within 24 hours after the Customer makes the first refill of 50 kuna or more.
5. The balance and validity of the data package can be checked by dialing \*150#, then 2 for Bonuses/Packages (Bonusi/Paketi), or directly \*150\*8#.
6. Call duration is limited to 60 minutes. After that the call will be automatically disconnected.
7. Tele2 Croatia is not held responsible in case services that are included in this tariff will not be available at every moment. The reason is that service delivery is also provided from other international mobile operators, not only Tele2 Croatia. It is also possible that due to the SMS centre congestion during the summer, SMS to some of destinations won't be delivered.
8. The Customer can activate another tariff for Tele2 prepaid customers that is available for activation, but cannot migrate back to the International tariff after that.
9. The Customer cannot use the SMS sponsor service. Calls and SMS to value added services are not available.
10. The Customer can activate additional data packages, SMS packages and use the SMS parking and mPrijevoz (mTransfer) service.
11. Existing Tele2 Customers cannot activate the International tariff, that is, they cannot migrate from their current tariff to the International tariff.
